CAPABILITY STATEMENT

San Diego, California | September 2026

Additive manufacturing, custom signage, and design support for commercial and government buyers.

CORE CAPABILITIES

Additive manufacturing. FDM and resin 3D printing for prototypes, brackets, fixtures, housings, and custom parts.

Custom signage. Indoor and outdoor signage, dimensional lettering, identification plates, mounts, and installation aids.

Plastics fabrication and production. Small batches, shop aids, replacement components, and repeat orders.

CAD and file preparation. Basic modeling for signage, brackets, fixtures, and simple parts; printability review from CAD, drawings, sketches, or photos.

Commercial printing. Decals, labels, and printed signage.

DIFFERENTIATORS

U.S.-owned, home-based manufacturing with competitive pricing. Direct owner access for quick communication and decisions, responsive turnaround, and flexible small-batch fabrication.
